MARBLE HILL, - MISSOURI

Chicago Record-Herald: Ambassador Hill will continue to amuse.

The czar is said to have a dozen crowns. His head lies uncased enough with one.

"All in favor of apple dumplings please rise," says the Baltimore Sun. The ayes have it.

Men will have to buy the dominion of the air with blood. That was how the land was won and the sea.

And now comes the piskin further to divert attention from the game of saving the country.—Boston Herald.

No one objects to the director's gown provided it does not look as if the lower part of it had caught on a nail.

"No woman who wears a 'rat' shall become my wife," says an Ohio college professor. Rough on rats, for sure.

Esperanto, of course, is not a dead or even a dying language. Its "rattling in the throat" is an auricular illusion.

A Chicago princess who is stranded in Paris finds it is mighty little in the way of groceries that she can buy on her title.

We are worried about where they are going to put the gasoline stations for these new air machines.—Atlantic Constitution.

The Russian minister of commerce is named Shipoff. It is to be hoped for the trade of the country that he lives up to it.

Kelr Hardie advises Americans to "go into politics." They do. But not like a flock of silly sheep with some agitator for bell-wether.

"Rats no longer are worn in the hair," says a woman's magazine. No, they seem to have been supplanted by those little rows of mice.

It is hard to tell which tastes better, the first piece of flaky, juicy, spicy, raisiny mince pie in the fall, or the first cucumber in the spring.

Probably that Milwaukee hermit who refused to wash for eight years was not a teetotaler and consequently did not want to encourage any undue intimacy.

Of course plants are capable of feelings. Hasn't the corn ears to hear and the potatoes eyes to see? Haven't you heard the trees moan and seen the rose blush?

An insurance man says there are 19,500 women in New York who are past 75 years of age. This is not surprising; there are lots of chorus girls in New York.

Flowers may have memories, but as long as the corsage bouquet and the honeysuckle on the porch can tell no tales what does it matter?—Louisville Courier-Journal.

A man in Des Moines buys his mother-in-law five pounds of candy every week. The scheme should work and is safer than the slow poison plan.—Detroit Free Press.

Now that the North cape's cliffs have been desecrated by the brushes of the advertising painters we almost wish that Peary would never give them a chance at the north pole.

A perfectly good imitation of a Carnegie hero medal is offered to the man who has read all of the political platforms, speeches of acceptance and campaign books.—Louisville Courier-Journal.

"Auto-suggestion" is receiving considerable attention from scientists. Did you ever catch the monologue of the man on his back in the dust trying to coax the machinery of one of the snorting go-devils?

An up-to-date farmer in Connecticut insists on having a flying machine clause in his insurance policy, arguing that flying machines are quite as uncertain as tornadoes, for you never know what or when they are going to strike.

A Philadelphia heiress alleges that she went through a mock marriage with an American for the purpose of keeping her parents from purchasing a foreigner with a title for her. We can hardly believe her story is true, because it is reported that her mother has forgiven her.

The government is going to lay a molasses road in Massachusetts. That is, it will prepare a binder for macadam roads the basis of which will be the residue of sugarcane manufacture, a by-product for which there is at present no known use. But isn't there some danger that the small boys and girls will carry off the road for all-day suckers or some other terrible things?

The dahlia is coming to a place of honor in the floral world. Last year a special display of this flower was made in Indianapolis and exhibitions are now in course of preparation in eastern cities. The dahlia is a stiff, formal blossom, with no sentiment connected with it, but it has the beauty of rich coloring in a variety of shades. There are said to be 500 or more known varieties of the dahlia, and as it is easy to produce new specimens both professional and amateur florists are fond of experimenting with it. A dahlia fad is impending.

FOUND DEAD IN BAY

BODIES OF MAN AND WOMAN BOUND WITH WIRE.

FEW MARKS TO IDENTIFY THEM

May Have Been Tied by an Enemy and Cast Into Water, or Might Have Preferred Death.

New York, N. Y.—Bound face to face with rope and wire, the bodies of a man and a woman, both expensively clad, were found today floating in the waters of Jamaica Bay. The Brooklyn police, who are investigating the mystery, are unable to say whether it is murder or double suicide.

An enemy might have bound the rope about the couple which held them close while the waters choked out their life, or they may have chosen death to life apart.

That the suicide theory is possible is indicated by the fact that to the woman's wrist was wired a handsome alligator bag containing mutilated letters and a \$10 bill. All other marks of identity have been effaced.

Fishermen Find Bodies.

The floating bodies were discovered when fishermen in a launch ran them down about two miles from Crescent street, east New York, and a message was sent to the police as soon as the launch struck shore with its tow.

Coroner Nutt of Queens County declares that the bodies had not been in the water more than three or four hours.

The woman was blonde, about 30. On her finger was a wedding ring. She or the man had never known privation. In his pocket was a handsome gold watch and chain, and on these trinkets the police rely to solve the mystery.

Tawney, before the Fire Underwriters' Association of the Northwest at Chicago, that the Panama canal would be completed in six years at a total cost of \$256,000,000, was shown to Col. Gotthals, chief engineer of the work, who is attending a hearing in the army building here.

Officer, After the Tragedy, Went to His Own Home and Shot Himself.

Morrill, Kansas.—Perry Royer, marshal of Morrill, shot and killed J. H. Schmucker, editor of the Morrill News, Wednesday afternoon, and then killed himself.

The trouble between Royer and Schmucker was caused by an item which appeared in the Morrill News Tuesday afternoon.

Several companies of soldiers passed through Morrill recently. It was reported that the soldiers were drinking liquor at a certain place in Morrill. Marshal Royer went to the place and had trouble with the soldiers. The soldiers took the marshal's club away from him, whereupon Royer shot at one of them, but did not hit him.

The item in the Morrill News Tuesday afternoon told of the incident and referred to Royer in language which Royer resented.

Schmucker and Royer quarreled on the street Wednesday afternoon. After the men had walked a block, Marshal Royer picked up a stone and threw at Schmucker. Schmucker warned off the blow with a bucket he had in his hand. Whereupon Royer drew his revolver and shot Schmucker in the head. Schmucker died almost instantly.

TRIAL BEFORE ARMY RETIRING BOARD CONCLUDED.

HAS BEEN IN SERVICE 41 YEARS

Expected That Retirement of Fort Grant Exile Will Be Recommended.

Washington, D. C.—The case of William F. Stewart before the army retiring board was closed Friday afternoon. It is expected that the board will recommend his retirement.

Testifying in his own behalf, Col. Stewart asserted that the day after the surgeons at Fort Huachuca had pronounced him unfit to undergo the 90-mile riding test, he went out on horseback with Maj. Foster, Lieut. Parker and Chaplain Chase of the Fifth Cavalry. He added that for some time after that he rode every afternoon in company with Chaplain Chase from 8 to 14 miles.

Often the riding was fast. On one occasion they went five and a half miles from the post and covered the return trip in 28 minutes, walking their horses the last mile, in order to let them cool off.

The Colonel stated he had been in the service 41 years, 10 months and 9 days. So far as he knew, only four officers now on the active list have exceeded this record.

PUTTING IT UP TO BILLIE.

Logical Reason Why He Should Be the One to Ask Favor.

The wagons of the "greatest show on earth" passed up the avenue at daybreak. Their incessant rumble soon awakened ten-year-old Billie and his five-year-old brother, Robert. Their mother feigned sleep as the two white-robed figures crept past her bed into the hall, on the way to investigate. Robert struggled manfully with the unaccustomed task of putting on his clothes. "Wait for me, Billie," his mother heard him beg. "You'll get ahead of me."

"Get mother to help you," counseled Billie, who was having troubles of his own. Mother started to the rescue, and then paused as she heard the voice of her younger, guarded but anxious and insistent:

A SUDDEN GOLD.

Miss Helen Sauerbier, of 815 Main St., St. Joseph, Mich., writes an interesting letter on the subject of catching cold, which cannot fail to be of value to all women who catch cold easily.

PERUNA ADVISED FOR SUDDEN COLDS.

It Should be Taken According to Directions on the Bottle, at the First Appearance of the Cold.

St. Joseph, Mich., Sept., 1901.—Last winter I caught a sudden cold which developed into an unpleasant catarrh of the head and throat, depriving me of my appetite and usual good spirits. A friend who had been cured by Peruna advised me to try it and I sent for a bottle at once, and I am glad to say that in three days the phlegm had loosened, and I felt better, my appetite returned and within nine days I was in my usual good health.

—Miss Helen Sauerbier. Peruna is an old and well-tried remedy for colds. No woman should be without it.
